

Fairborn Cement Company  
3250 Linebaugh Rd.  
Xenia, Ohio 45385

As an AIA approved Continuing Education Service Provider (CES), Fairborn Cement Company is proud to offer the following AIA approved course.

“Introduction to Masonry Mortar” is an introductory, educational presentation focused on providing the attendee with a basic understanding of masonry mortar.

#### **Course Description:**

This course is intended to provide a general knowledge and understanding of masonry mortar ingredients, selection of, preparation of, use and testing of on construction projects.

#### **Learning Objectives:**

1. Understand what masonry mortar is, including what constituent materials are used.
2. Receive a general understanding of why masonry is a common building material.
3. Understand the proper construction techniques used to install masonry mortar.
4. Receive a general overview of laboratory and field sampling of masonry mortar.

Masonry buildings make up around 70% of the buildings in the world. Understanding the basics of masonry mortar is the start to a strong knowledge base on the topic. With the completion of this course, you will have a better understanding of how the product is properly made and used on your projects. We will also touch on why masonry is a good choice as a building material. Additionally, we will provide an introduction to laboratory and field evaluation of masonry mortar.

Upon completion of the course, each attendee will earn 1 LU Hour

#### **Product Offerings:**

**Type I, Type II & Type III Portland Cements, Class A Oil Well Cement, Types N, S & M MIAMI Masonry Cements, Types N & S MIAMI Mortar Cement and MIAMICOLOR Colored Masonry and Mortar Cements**
